

I have a commute of over 60 miles one way to work each day. I depend on XM Instant Traffic & Weather to keep me updated on where the accidents are. It has saved me several times from getting stuck in a jam. Since I don't have to listen to local stations talk and/or music waiting for traffic updates, I can make instant decisions about alternate routes if need be. My whole family enjoys the variety of stations available on XM Satellite Radio. We all have our favorites. I urge the FCC to reject the NAB's petition 04-160. I pay for the freedoms that XM provides me, just like the freedoms I pay for on my Satellite TV and I deserve to have the best that XM provides. Thank you.
